

Venkat Thanmai Kumar V

.NET Full Stack Developer

Loc: Bangalore, India Ph: +91 8861944492 Email: vtkumar743@gmail.com
Linkedin: linkedin.com/in/venkatthanmai

PROFILE SUMMARY

Results-driven .NET Full Stack Developer with 1 year of experience designing and delivering enterprise-grade applications. Proven expertise in building a full-stack CRM platform using React and ASP.NET Core, with strong command of RESTful API design, SQL Server optimisation, and Azure cloud deployment. Experienced in integrating real-time industrial IoT data into scalable, production-ready solutions using layered architecture and clean coding principles.

PROFESSIONAL EXPERIENCE

.NET Full Stack Developer

Elpis IT Solutions, Bangalore 1 Year

- Developed and maintained a full-stack CRM application using React (frontend) and ASP.NET Core (backend), supporting end-to-end business workflows.
- Designed RESTful APIs following layered architecture and repository pattern, ensuring maintainable and testable code.
- Integrated real-time industrial IoT device data into web applications, enabling live monitoring and operational insights.
- Managed SQL Server database design, schema optimisation, and complex query performance tuning for high-volume data operations.
- Deployed applications on Microsoft Azure and configured Nginx as a reverse proxy for reliable production hosting on Linux.
- Collaborated cross-functionally to deliver scalable, production-ready features aligned with business and quality standards.

KEY PROJECTS

CRM Application — React · ASP.NET Core · SQL Server · JWT · Nginx

- Architected a comprehensive CRM system covering Contacts, Accounts, Deals, Email, and Authentication modules.
- Developed responsive React dashboards and reusable UI components, improving user experience and operational efficiency.
- Secured RESTful APIs with JWT-based role-based access control (RBAC) and optimised SQL Server queries for production workloads.

TaskFlow — Full-Stack Task Management Platform (React, ASP.NET Core, SQL Server, EF Core, Claude AI)

- Designed and developed an AI-powered work management platform utilizing AI pair-programming techniques.
- Delivered comprehensive task and project management features with multiple task views.

TECHNICAL SKILLS

Backend: .NET, ASP.NET Core, C#, Web API, Entity Framework Core, ADO.NET

Database: SQL Server (design, optimisation, query tuning)

Frontend: React, Angular, HTML5, Tailwind CSS, JavaScript

Cloud & Tools: Azure, Linux, Nginx, JWT Authentication, REST APIs, IoT Integration

EDUCATION

B.Tech — Computer Science & Engineering

New Horizon College of Engineering, Bangalore

Intermediate (PUC)

Sri Chaitanya PU College

SSC (10th Standard)

Sri Chaitanya Techno School

CERTIFICATIONS & LANGUAGES

Certification: .NET Full Stack Development

Languages: English · Tamil · Hindi · Kannada · Telugu
